SUMMARY

Senior UX Designer with 15+ years of experience designing complex enterprise SaaS, back-office platforms and mobile products in regulated domains (iGaming, Fintech, Healthcare). Specializes in user-centered design, agentic and AI-driven workflows, design systems and mobile UX. Led redesigns based on user research, journey mapping and feedback analysis that cut task time by 40% and increased feature adoption by 35-47%. Uses generative AI tools (Claude, Gemini, Grok) daily for research synthesis, rapid prototyping and concept development. Also designs mobile game concepts end to end: world building, narrative, core loops, characters and full game UI kits.
